CYBERSECURITY IN FOCUS AT 17TH ANNUAL SECUREWORLD PHILADELPHIA

*Nationally-recognized cybersecurity conference returning to Philadelphia;
hundreds of InfoSec leaders will learn and share best practices*

March 18-19, 2020 • 7:30 a.m. – 3:45 p.m.

**Valley Forge Casino Resort
1160 First Avenue, King of Prussia**

PHILADELPHIA, PA — These days, cyber incidents are making the headlines—from major data breaches and nation-state hacking to ransomware viruses that lock up our computers and smart devices. This increasing attention on digital security has people asking: Is our personal data truly secure anymore? And what can you do to protect yourself at this point?

With a regional crowd of more than 800 attendees, SecureWorld is your opportunity to learn and engage on critical cybersecurity topics. We can help arrange interviews with IT security experts to answer these questions for your audience.

Now in its seventeenth year, SecureWorld is Philadelphia largest such event, bringing together top minds in the local cybersecurity community for training and collaboration. We invite you to join us for access to these practitioners and thought leaders who can help your audience better understand the issues that threaten their security, privacy, and finances.
